Sustainability Policy

Purpose

Next review date March 2025

Bottle Green Training Ltd

Bottle Green Training Ltd (BGT) recognises our responsibility to operate in an environmentally responsible and sustainable manner.

We are committed to maintaining our environmental footprint, promoting social well-being, and contributing to the long-term economic vitality of our community.

This sustainability policy reflects our dedication to creating a more sustainable and environmentally friendly college environment. By working together and embracing sustainable practices we can make a positive difference for our plant and future generations.

To implement the policy BGT will consider:

Energy efficiency

We will strive to reduce energy consumption by implementing energy-efficient technologies and practices, such as LED lighting, thermostats, and energy efficient appliances, switching off appliances when not in use.

Waste Reduction

We will minimise waste generation by promoting a paperless environment where possible. Implementing recycling programs for paper, plastic, glass, and other materials, and reducing single-use plastics and unnecessary packaging.

Water Conservation

We will ensure that water saving measures are implemented by promoting awareness of water conservation practices among staff, apprentices, and visitors.

Communication and Awareness

We will communicate our sustainability efforts to employees, apprentices, visitors, and stakeholders through internal communication and visible reminders to raise awareness and promote engagement.

Compliance and Accountability

We will comply with all relevant environmental regulations, standards and hold ourselves accountable for meeting the commitments outlines in this sustainability policy.
